---

## Professional Summary

AWS Certified Solutions Architect and BSc CSIT graduate with hands-on experience in Docker, CI/CD (GitHub Actions), AWS (EC2, S3), and observability tooling (Prometheus, Grafana, Alertmanager). Proven track record building production-grade pipelines and monitoring stacks. Seeking an entry-level DevOps or Cloud Engineer role to drive automation, reliability, and scalability.

## Skills

**Cloud & DevOps:** AWS (EC2, S3, IAM, VPC, CloudWatch), Docker, Docker Compose, GitHub Actions, Linux, Git, Bash

**Monitoring & Observability:** Prometheus, Grafana, Alertmanager

**Web Development:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, gRPC

**Databases:** PostgreSQL (PostGIS), MongoDB, Oracle, Redis

**Core Concepts:** CI/CD, Cloud Networking, Infrastructure as Code, System Design, DSA

---

## Work Experience

**Cloud Apprentice** | TekBay Digital Solution LLC *Dec 2025 – Mar 2026*

- Deployed and managed production applications on AWS (EC2, S3), configuring instances, storage policies, and access controls to meet enterprise reliability standards.
- Architected and maintained GitHub Actions CI/CD pipelines to automate build and deployment workflows on AWS, reducing manual release effort.

**Software Developer Intern** | Nepal Rastra Bank *Sep 2025 – Nov 2025*

- Contributed to a Central Bank Digital Currency (CBDC) web portal using Next.js within a microservices architecture.
- Designed and integrated gRPC-based inter-service communication, improving data exchange efficiency and service scalability.

---

## Projects

**AWS-based CI/CD Pipeline** | Docker · GitHub Actions · EC2 · S3

- Architected a GitHub Actions CI/CD pipeline automating build, test, and deployment stages, reducing manual release effort to zero.
- Provisioned AWS S3 for static asset hosting and deployed a Dockerized NGINX reverse proxy on EC2, achieving high-availability static site delivery.
- Implemented automated S3 sync and container restart with health checks via SSH automation.

**Docker Monitoring & Alerting Stack** | Prometheus · Grafana · Alertmanager

- Engineered a full-stack Docker Compose observability platform integrating Prometheus, Grafana, and Alertmanager for real-time metrics and automated Slack incident alerts.
- Containerized the full application stack (frontend, backend, database) ensuring environment consistency across development and production.

**Smart Palika** | Civic Complaint Management System · Node.js · PostgreSQL · PostGIS

- Built a municipal-level complaint management system with geolocation-based ward assignment to auto-route complaints using PostGIS.
- Developed REST APIs with Redis caching and secured endpoints using JWT, bcrypt, and cookie-based authentication.

---

## Education

**BSc CSIT (TU)** | Amrit Science Campus, Kathmandu • 2026 (*Result Awaited*)

**XII Science (NEB)** | KMC, Kathmandu • GPA: 3.64 • 2021

---

## Certifications

**[AWS Certified Solutions Architect – Associate](#)** | Amazon Web Services | 2026
